

## EASY LIFT AUTOMATION SYSTEM for handling thermoformed products

The conveyor belt receives the items from the thermoforming machine at an **adjustable height** and down to a level of 800 mm. **This facilitates the working conditions of the operator and the integration of automatic packaging systems.**

EASY LIFT fits every thermoforming machines downstream.

Integrated HMI with AMUT-COMI machines or independent HMI with other brands.

**TWO MODELS ARE AVAILABLE**

- 1 90° - discharge conveyor
- 2 Longitudinal discharge conveyor
