## PRESS RELEASE

### **AMUT GROUP BELIEVES IN ARGENTINEAN MARKET**

Strongly trusting on South America continuous growth, this year also, **AMUT GROUP** will be exhibitor at Argenplas in Buenos Aires, showing its range of products and presenting its recent structure as Group.

**AMUT**, headquartered in Novara, Italy, is a global leader in plastics extrusion and recycling field since 1958. It is manufacturer of lines to produce foils, sheets, pipes, profiles, panels and edge banding for several materials and applications. AMUT Recycling Division supplies complete plants to recovery PET bottles, HDPE containers and LDPE film.

**AMUT has recently become** a Group including **AMUT COMI**, company dedicated to the thermoforming industry and **AMUT ECOTECH**, producer of recovery and recycling facilities (municipal and industrial waste) to handle different waste. Further AMUT has extended its global presence with branches in Canada and USA (**AMUT NORTH AMERICA**) and in Brasil (**AMUT WORTEX**).

Over the last few years, AMUT has sold some extrusion lines both for Argentinean and Colombian customers, mainly complete plants to produce PP sheet and PVC profiles. Lately, a coating line for HDPE/MDPE pipes has been delivered to a big producer in Argentina who had already put its trust in AMUT's technology during the past. K Show in Dusseldorf has been a good occasion to meet potential customers from Latin America and AMUT is dealing with some of them to finalize new projects, now Argenplas give us an opportunity of meeting with key customer on their own continent.

**AMUT GROUP** always stands for innovative process engineering as well as flexibility and high quality production.

**AMUT GROUP** welcome you at booth n.G-65.
