

Extrusion & Recycling Technologies

## AMUT - Bethesher | New Cooperation in the Philippines

(Novara, Italy – 1 July 2024) – AMUT is glad to announce that Bethesher Industrial Supplies has been appointed as sales agent for the entire product portfolio, throughout the Philippines.

BIS is one of the leading suppliers of packaging machinery. They specialize in Injection Stretch Blow, Injection machine and related turnkey project.

Headquartered in Novaliches Quezon City, Philippines, thanks to its industry-wide reputation Bethesher will market AMUT's extrusion and recycling plants, delivering exceptional service to customers and prospects. Their proven track record of excellence in sales and a deep knowledge of their market, will strengthen our position in the country.

"We are pleased to have Bethesher Industrial Supplies as member of our sales organization expanding our worldwide network. Bethesher Industrial Supplies sets apart in unwavering focus on reliability and sustainability and working hand in hand with businesses to optimize operations and unlock new levels of efficiency to customers with a variety of complete extrusion and recycling solutions. We are confident that their dedication will contribute significantly to the growth of our business in the Philippines." Andrea Peretto, AMUT Sales Area Manager & Engineering, stated.

"We are committed to deliver innovative, high-performance machinery solutions that empower industries to thrive and excel in maximizing efficiency and sustainability. We are extremely happy with the cooperation established with AMUT and glad to incorporate its exceptional expertise in extrusion and recycling solutions into our offering." commented Jon Diaz, Bethesher Industrial Supplies Managing Director.

### AMUT PROFILE

AMUT, established in 1958 is a global leader in recycling and extrusion technologies. AMUT specializes in the design and construction of plastic recycling plants for PET/HDPE/PP bottles, containers, and PE film. The company supplies state-of-the-art installations including front-end sections to ensure the most efficient sorting solution, hi-tech washing plants and extrusion lines to process flakes into pellets. AMUT also provides high-quality extruders, related ancillary down-stream equipment and a wide range of custom-engineered

lines to produce foils, sheets, stretch film, waterproofing membranes, pipes, and profiles. Learn more at [www.amutgroup.com](http://www.amutgroup.com).
