

CHIP MONG & AMUT GROUP: THE BEGINNING OF A GREAT COLLABORATION

Founded in 1982, Chip Mong Group (CMG) is one of the largest diversified groups in Cambodia with businesses ranging from property development, beer and beverages, to manufacturing and distribution of building materials. The CHIP MONG INDUSTRIES Division has recently wanted to expand its business including a new field: pipes manufacturing. AMUT GROUP was the supplier chosen for this project.

“We had such a good first impression of AMUT GROUP technology that we decided to put our confidence in the Italian company **buying in one single step four extrusion lines for the production of pipes**. The lines will produce pipes in different materials permitting us to cover different applications and markets: water supply and drainage - UPVC pipes, flexible electric conduit - UPVC corrugated pipes, general purposes – HDPE small diameters pipes. We hope this could be the beginning of a great collaboration for our future investments” – stated Mr. James Henshaw, CEO of CHIP MONG INDUSTRIES, during his visit at AMUT premises for the machines testing period.

One line for the production of HDPE pipes

Range of diameters: from 16 to 63 mm

Output: 250 kg/h using single screw extruder \varnothing 48 mm - 40 L/D

Pipe Thickness Range: from 2 up to 3.8 mm

Two lines for the production of UPVC pipes

Range of diameters: from 63 to 125 mm

Output: 350 kg/h using parallel twin screw extruders \varnothing 76 mm - 28 L/D

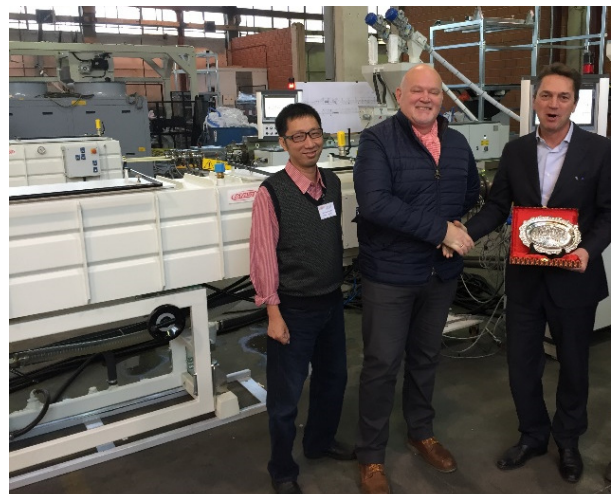

Pipe Thickness Range: from 2.5 up to 5.2 mm

One line for the production of UPVC corrugated pipes

Range of diameters: from 16 to 32 mm

Output: 150 kg/h using conical twin screw extruder \varnothing 48 mm - 24 L/D

Flexible Hose Thickness Range: from 0.1 up to 0.6 mm
